## JIMMY At The James

📍 15 Thompson St.

MAP

Located in a trendy hotel in a prime Soho location, Jimmy is predictably a scene - but a fun one.

**Rooftop Power Points:** Unique views all around, a pool, pretty people, that ideal rooftop height where you're just high enough to feel like you're on a roof but not so high that it's cold and windy.

**Penalties:** You'll probably have an annoying time getting in at peak times.
